

## Release Notes

### EvoStor Manager Version 2.1.0-2802

March 7, 2005

#### **Fixed Bugs:**

1. Warning message box cannot show up as a topmost window.
2. Warning message box will show up again after clicking "OK".
3. Logical volume cannot be deleted in Japanese Windows.
4. Windows messages have not been translated to Japanese completely.
5. ActiveX control rendering problems.

#### **New Features:**

1. EvoStor Manger will connect to the agent automatically if these two applications are executed on the same machine.
2. Warning message box will display log time.
