

NVR Innovative Network Video Recorder VioStor-201

Network Surveillance System for SOHO and SMB
QNAP Network Video Recorder for IP Camera

Live Monitoring, Recording, and Video Playback over the Internet Anytime, Anywhere
Secure Life, Secure Property

Powerful All-in-one Recording

- Continuous/ manual/ schedule recording (up to 15 schedules for each camera)
- Alarm recording (by motion detection or sensor triggered)
- Alarm recording schedule
- Up to 240 fps (8 channels) QVGA/ CIF recording
Up to 80 fps (8 channels) VGA/ D1 recording
- High quality recording in Motion-JPEG and MPEG-4
- Audio recording (depends on the cameras)

Variety Live Video Monitoring

- 1/ 4/ 6/ 8/ 9-channel display mode
- Sequential and Picture-in-Picture display mode
- Easy drag and drop to change display order on monitoring
- Digital zoom
- Alarm notification
- Smart control of PTZ & speed dome cameras
- Monitoring preset position control

Easy to Use

- Trouble-free 6-step installation
- Intuitive web-based user interface
- Smart search of IP camera for quick settings
- Intelligent auto power on when power resumes after power outage

High Reliability and Smart Features

- Secure data protection by RAID 1 Mirroring
- RAID 0, JBOD (Just a Bunch of Disks / Linear)
- Convenient video backup to external USB storage by one touch auto video backup button
- Supports UPS (Uninterruptible Power Supply) for 24x7 service
- Green NVR solution: Linux-embedded system with low power consumption (25.2W only)

**Real-time monitoring
over the Internet anytime, anywhere !**

QNAP VioStor-201

Secure Life, Secure Property

High Reliability Network Surveillance System for SOHO and SMB

QNAP VioStor-201 NVR is a 2-bay hot-swappable NVR (Network Video Recorder) for remote monitoring and recording from **Axis, ACTi, Arecont, Canon, D-Link, GANZ, IQeye, Mobotix, Panasonic, Sanyo, Sony, Toshiba,** and **Vivotek** IP-based cameras. The VioStor-201 supports 8-channel M-JPEG or MPEG4 recording. It houses 2 high-speed hot-swappable SATA hard disks for long-term recording and supports RAID 1 mirroring for secure data protection.

Featured with Linux OS, RISC CPU, and embedded architecture, the VioStor-201 NVR is a more reliable alternative than traditional PC-based surveillance system. It is less vulnerable to virus attack, more energy-saving and allows simple installation in 6 steps by the

web-based GUI. The video monitoring, system configuration and playback can all be done using the web browser any time, anywhere.

The VioStor-201 supports manual recording, motion-detection-triggered recording, schedule recording, continuous recording, and alarm-triggered recording with audio on/off option. Versatile display modes, including 1/ 4/ 6/ 8/ 9 channels display, sequential display, and picture-in-picture mode, are provided. The VioStor-201 also supports multi-channel playback and smart control of PTZ cameras. It is an ideal network surveillance solution for system integrators, SOHO, and SMB users who demand a complete end-to-end IP-based surveillance system.

Powerful Surveillance Features

• Variety Live Video Monitoring

- 1/ 4/ 6/ 8/ 9-channel display mode
- Sequential display mode
- Exclusive Picture-in-Picture mode

• Easy Drag and Drop Function on Monitoring

The VioStor-201 NVR provides easy drag and drop to change the display order of the monitoring channels for different monitoring management target.

• Smart Control of PTZ & Speed Dome Cameras

You can adjust the PTZ cameras directly by the web user interface.

• Digital Zoom for Monitoring and Playback

The VioStor-201 NVR supports digital zoom for more flexible monitoring and playback. It is a powerful function for megapixel IP cameras.

• Alarm Notification

When alarm recording is enabled and an event occurs, an alarm icon is shown instantly on monitoring page. You can click the icon to view the alert details.

• Monitoring Preset Position Control

You can view different preset positions of the camera by clicking the number buttons on monitoring page.

• All-in-one Recording Functions

- Continuous/ schedule/ manual recording
- Alarm recording (by motion detected or sensor triggered)
- Scheduled alarm recording
- High quality recordings in Motion-JPEG and MPEG-4 (depends on camera)
- Supports audio recording function (depends on camera)
- Supports megapixel recording

• Pre-alarm and Post-alarm Recording

The VioStor-201 NVR supports pre-alarm and post-alarm recording, which is used to record additional details before and after the event occurs.

• Real-time Email Notification

Alert e-mails are sent to the administrator immediately in case of system error or emergent events.

• Authority Management

You can configure the monitoring and playback authority of specified cameras for different users. The authority can be set for up to 32 users. Different monitoring and playback rights can be assigned for individual user.

• Host Access Control

You can specify the connections to be allowed and denied to access NVR.

• On-line User List

You can view the record of users currently logged on and previously logged on to the NVR.

• Detailed Event Logs

The VioStor-201 NVR provides detailed event logs of system warning, hard disk error, network disconnection, UPS status, and users' networking services and recordings access record.

• E-map for Easy Preview of the Camera Location

The VioStor-201 NVR provides an exclusive E-map function for you to upload the pictures of the monitoring location.

• Video Snapshot

The snapshot function is supported on monitoring and playback page.

• Convenient Quick Link Buttons of Network Camera

You can make use of the quick link buttons to access the management interface of the network cameras.

• Easy Data Search by Date & Time and Alarm Event

The VioStor-201 NVR supports quick search of recording data by date and time, and alert events.

High Reliability and Smart Features

• RAID 1 Configuration with Hot-Swap Design

The VioStor-201 NVR supports RAID 1 configuration to enhance data security. With the hot-swap design, when a member drive of the RAID 1 configuration fails, you can replace the failed drive with a new one immediately without shutting down the NVR. This ensures the continuity of the monitoring and recording process.

• RAID 0, JBOD

The VioStor-201 NVR supports RAID 0 and JBOD configurations for larger storage capacity and higher reading and writing performance.

• Intelligent Automatic System Startup

The VioStor-201 NVR supports intelligent power-on support. When enabled, the system turns on automatically when the power resumes after power outage.

• Supports UPS for 24*7 Service

With UPS, the system can function normally in case of power outage or unstable power supply.

• Convenient Video Backup by One Touch Auto Backup Button

The VioStor-201 NVR supports exclusive USB auto video backup button. By pressing the button once, all the recording data on the VioStor-201 NVR will be copied to external USB storage device immediately.

• Multi-channel Playback at Different Speed

The VioStor-201 NVR supports playback of the recording data from different monitoring channels. It also provides Express Quad View Playback that you can either divide the selected time equally into four playback views or play the video of four cameras at the same time.

• Recordings can be Played by Windows® Media Player

You can play the files by Windows® Media Player. There is no need to install unique program or convert the files to other formats.

• Convenient Recordings Playback

The VioStor-201 NVR adopts complete network-based management interface that users can download the recording data via the web and play the files from remote computer.

• Flexible Adjustment of the Length of Recording Files

The VioStor-201 NVR enables the users to flexibly adjust the length of the recording files.

• Schedule Remote Replication

The VioStor-201 NVR supports schedule remote replication for secure data backup to a remote NAS.

Excellent Hardware Design

• Embedded System with Low Power Consumption

Built on Linux OS, the VioStor-201 NVR is less vulnerable to virus attack and more energy-saving than PC-based surveillance solutions.

• Supports 2 SATA HDD for Long-term Recording

The VioStor-201 NVR supports two SATA hard drives with the storage capacity of up to 2TB for long-term recording.

• Small-sized, Easy to Deploy

The VioStor-201 NVR occupies small space. It is easy to install and maintain.

Powerful Network Services

• Built-in NTP server/ DDNS support

• Convenient data access

You can access the recording data on the VioStor-201 NVR by: Network Neighborhood (SMB/ CIFS) / Web File Management (HTTP) / FTP server

Application: Live Monitoring, Recording, and Video Playback over the Internet Anytime, Anywhere

• Home Care

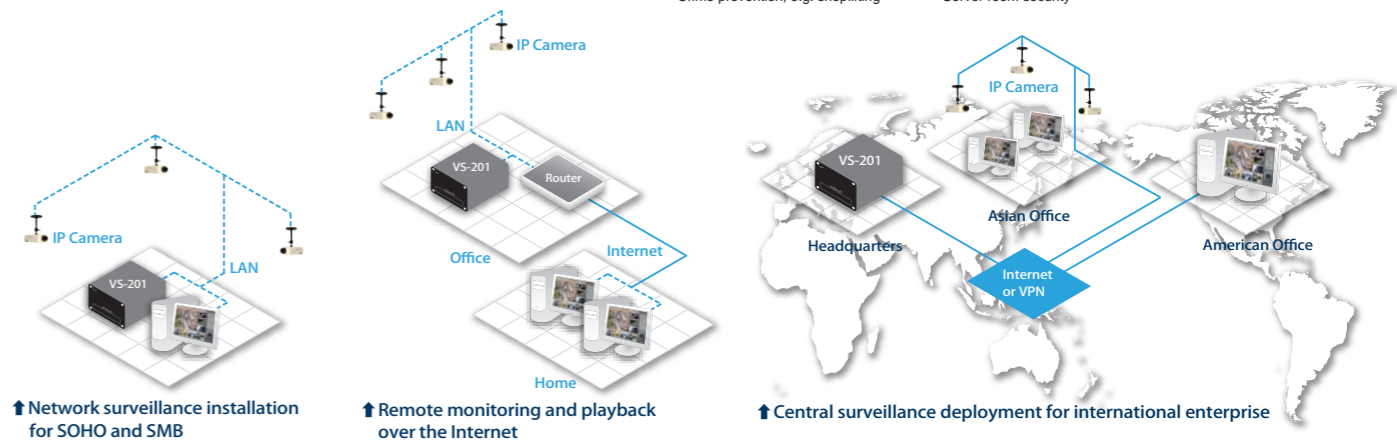

- Home surveillance to secure life and property
- Enhanced protection for kids, elders, and pets
- Crime prevention
- Evidence or aid to police investigations

• Office Management

- Real-time office monitoring from remote locations
- In-house office monitoring
- Office security fortification
- False alarm identification

• Business Service

- Live production line monitoring for quality and security control
- Department store/ mall monitoring
- Shipping process recording
- Crime prevention, e.g. shoplifting
- Parking lot monitoring
- Construction site monitoring
- Convenience store security
- Campus security
- Server room security
- Gas station security
- Hotel security
- Multiple remote offices/ factory sites live monitoring

Hardware Specifications

HDD Capacity

- 2 x 3.5" SATA I/II HDD, up to 2TB (the standard system is shipping without HDD)

LAN Port

- 1 x Gigabit RJ-45 Ethernet port

LED Indicators

- Power, USB, status, LAN, hard disk

USB

- 3 x USB 2.0 for USB storage device for one touch auto-video backup and UPS device

Buttons

- USB auto-video backup button, power button, reset button

Form Factor

- Desktop

Hardware Dimensions

- 214(D) x 175(W) x 115 (H) mm
- 270(D) x 203(W) x 235 (H) mm (Color Box)
- 8.43(D) x 6.89(W) x 4.53 (H) inch
- 10.63(D) x 7.99(W) x 9.25 (H) inch (Color Box)

Color Box Shipping Weight

- 3.5 Kg/ 7.72lb (without HDD)

Temperature

- Temperature 0~40°C

Humidity

- 0%~90% R.H.

Power Supply

- Input: 100-240V AC, 50/60Hz, Output: 12V DC, 5A

Power Consumption

- In operation: 25.2W

Energy saving Design

- Low power consumption & low noise

Thermal solution

- Low noise fan case

Secure Design

- K-Lock security slot for theft prevention

Software Specifications

Video

Display Mode: 1, 4, 6, 8, 9 channels, Picture-in-Picture, sequential mode

Recording Cameras Number:

Up to 8

Network Camera Support: For the latest information of the supported cameras, please visit QNAP Security website:

http://www.qnapsecurity.com/pro_compatibility_camera.asp

Compression Format: Motion JPEG/ MPEG 4 (depend on IP Camera)

Video Setting: Resolution, quality, frame rate

E-map: Upload E-map

Recording

Recording Mode: Continuous, manual, scheduled, alarm, alarm recording schedule, motion, snapshot

Buffer Storage for Alarm Images

(before and after events): Pre-recording: 300 seconds/

Post-recording: 300 seconds (Total 600 seconds/ 10 minutes)

Recording Performance:

- ◆ Up to 240 frames at QVGA/ CIF (320*240)

- Up to 80 frames at VGA (640*480)

- * Real performance may vary in different environment

File format: AVI (Recordings can be played by Windows Media Player)

Playback

Playback Channel: Max. 4 Ch SYNC Playback at the same time

Playback Mode: Play, pause, stop, reverse play, next/ previous frame, next/ previous video file, different speed control

Display Mode: Single playback view, 4 playback views

Search Mode: By date, time, alarm event

Playback Enhancement: Full screen display, video snapshot, digital zoom, screen recording and convert into one AVI file

Download: Click to download recorded files from web page

Storage

Disk Mode: Single, RAID 0, RAID 1, JBOD/ Linear

Capacity: Support 2 x 3.5" SATA I/II HDD, Up to 2TB

Services: Web File Manager, FTP, SMB/CIFS

Network

Support: HTTP, TCP/IP, SMTP, DHCP, Static IP, DNS, DDNS, FTP, NTP, UPnP

Camera IP Address & Port: Allow setting LAN/WAN IP address of each camera

Utility Software

QNAP Finder: Discovery and quick setup for NVR

Security

Operation System: Linux-embedded, free from PC crash and virus attack

On-line Users List: Record of users currently logged on and previously logged on to the NVR

Host Access Control: Specify the connections to be allowed and denied to access NVR

User Management: The right to monitor and playback each camera can be separately defined for each individual user (up to 32 users)

Alert Notification: E-mail, buzzer, event logs

UPS: APC (USB type of UPS)

Event Log: Detailed record of all events

Client PC Requirement

(Suggested system requirement for better video performance)

CPU: Pentium 4 CPU 2 GHz or higher

Memory: 512 MB or above

Operation System: Windows XP / Vista (32bit)

Browser: Internet Explorer 6.0 or later

Network Interface: 10/100 Mbps or above

View Resolution: 1024 x 768 pixels or above

Language Support

English/ Japanese/ French/ Italian/ German/ Spanish/ Russian/ Dutch/ Swedish/ Norwegian/ Finnish/ Danish/ Simplified Chinese/ Traditional Chinese

Certification

CE, FCC, VCCI, BSMI
