1. Virtual_JBOD.....	5
1.1 Remote login.....	5
1.2 Get remote limitation .....	5
1.3 Get remote enclosure list .....	6
1.4 Get remote enclosure info .....	7
1.5 Get remote pool list info .....	8
1.6 Get remote pool list.....	9
1.7 Get remote pool info.....	10
1.8 Get remote pool raid info.....	11
1.9 Get remote raid info .....	11
1.10 Get remote volume list .....	12
1.11 Get remote volume info .....	13
1.12 Get remote volume management.....	14
1.13 Get remote cache volume info.....	14
1.14 Get remote sharedfolder list info .....	15
1.15 Get remote sharedfolder list.....	17
1.16 Get remote sharedfolder info.....	18
1.17 Get remote qpkg list.....	19
<a href="http://IP:8080/cgi-bin/disk/virtual_jbod.cgi?func=remote_qpkg_list">http://IP:8080/cgi-bin/disk/virtual_jbod.cgi?func=remote_qpkg_list</a> .....	19
1.18 Get remote target list.....	20
1.19 Get remote target info .....	21
1.21 Get remote lun info.....	22
1.22 Get remote lun name .....	23
1.24 Get remote event log.....	24
1.25 Get remote nic capability.....	27
1.26 Get remote network info .....	27
1.27 Get remote network ip info .....	29
1.28 Get remote qcloud info.....	30
1.29 Get remote snapshot info .....	30
1.30 Set remote iscsi server.....	32
1.31 Set remote lun enabled .....	33
1.32 Set remote lun mapped .....	34

1.33 Set remote lun unmapped .....	35
1.34 Set remote host info .....	36
1.35 Add remote target .....	37
1.36 Add remote lun.....	38
1.37 Add remote initiator .....	39
1.38 Edit remote target.....	40
1.39 Edit remote lun.....	41
1.40 Remove remote target.....	42
1.41 Remove remote initiator .....	43
1.42 Remove remote lun.....	44
2. Virtual_Info .....	46
2.1 Get virtual disk setting .....	46
2.2 Get virtual disk status .....	46
2.3 Get remote disk.....	48
2.4 Connect target and get lun .....	49
2.5 Check virtual disk name .....	52
2.6 Add virtual disk.....	53
2.7 Delete remote LUN .....	55
2.8 Delete remote target .....	55
2.9 Format remote LUN .....	56
2.10 Edit remote target.....	56
2.11 Get remote target information.....	57
2.12 Connect remote target .....	58
2.13 Disconnect remote target .....	59
2.14 Edit remote LUN .....	59
2.15 Get remote LUN information .....	60
2.16 Get remote LUN format status.....	61
2.17 Clean no LUN target .....	62
2.18 Lock virtual disk .....	62
2.19 Unlock virtual disk .....	63
2.20 Change virtual disk key .....	63
2.21 Download virtual disk key .....	64
2.22 Set LUN ID information .....	65
2.23 Set target ID information .....	65
2.24 Set remote NAS information.....	65
2.25 Disconnect virtual disk .....	66

2.26 Connect virtual disk.....	66
2.27 Get nic capability.....	67
3. NAS_VIRTUAL_EX=no .....	69
3.1 Edit remote NAS information.....	69
3.2 Get remote NAS information .....	69
3.3 Remove virtual disk.....	70
3.4 Add remote NAS information.....	72
3.5 Format virtual disk.....	72
3.6 Disconnect virtual disk .....	73
3.7 Connect virtual disk.....	73
3.8 Remove multiple virtual disk.....	74
4. Appendix .....	75
Appendix I: VJBOD_Result .....	75
Appendix II: VDD_Result .....	75
Appendix III: Filesystem type .....	76
